

Dr Varun Bansal

MBBS, DNB (CTVS), FACS (Univ of Toronto), HMA (IIM-K)

Dr Varun Bansal is a Cardiac Surgeon with expertise in Robotics and Minimally Invasive Cardiac Surgery, currently working as Senior Consultant CTVS at Indraprastha Apollo Hospitals, New Delhi.

He has been applauded as the youngest ever cardiac surgeon to complete training in Robotics.

He completed his MBBS from KMC Manipal and pursued General and Cardiac Surgery from Delhi. Being an alumnus of University of Toronto where he did fellowship in Advanced Cardiac surgery, heart transplant and TAVI, he received advanced training in Robotics and Minimally Invasive Cardiac Surgery and is focused on providing the patients advanced therapeutics

He has more than 15 years of experience and has successful participation in more than 500 Robotic cardiac surgeries including Robotic CABGs, Mitral valve repairs, Heart defect closures and Tumour surgeries. He has several publications in international and national journals and has presented to peers and learned audience at various academic platforms.

Additionally he has completed Healthcare Management and Data Analytics executive learning from India's premier institute - IIM Kozhikode.

He has a keen interest in advanced therapeutics and preventive aspects of healthcare. He envisions working along different aspects of healthcare and technology to promote education, prevention and treatment.
