

Dr. Subhash Jangid

MS (AIIMS), DNB (Ortho), MNAMS, MRCS, MCh
Senior Director & Unit Head - Orthopaedics

Dr Subhash Jangid is currently working as Senior Director & Unit Head - Orthopaedics at Fortis Memorial Research Institute, Gurgaon. His primary work comprises of knee, hip and shoulder joints related surgeries including replacement and ligament reconstruction. He has a vast experience of more than 20 years in the field of Orthopaedics. He is now a known faculty in the field of Arthroplasty/Joint Replacement and Sports injuries in India and abroad. He is also a faculty for AO trauma courses. He has special interest in complex acetabular & pelvic trauma. He was the first surgeon in India, who introduced NAV 3 computer navigation for knee replacement surgery. He is one of the most experienced joint replacement surgeon in computer navigation technique in the world. This technique gives better results to the patients and the recovery is faster as compared to the conventional technique and also increases the life of artificial knee joint. The soft tissue dissection is also very minimal with this technique and it is truly a minimal invasive surgery with almost painless recovery.

Dr Subhash Jangid is also trained in Partial knee replacement surgery. Many osteoarthritic patients with advanced disease have all ligaments intact and the disease is limited to one compartment of the knee. These are the good candidates for partial knee replacement surgery. He has performed more than 20000 successful surgeries till date. He is actively involved in research and academics with many multinational surgical companies and academic institutes.
