

# Dr. Rahul Bhargava

MBBS, MD (Medicine), DM (Clinical Haematology, AIIMS)

**Principal Director & Chief** - Haematology, Haemato-Oncology & BMT

**Adjunct Professor** - ESIC Hospital, Faridabad

Dr. Rahul Bhargava is a leading Indian Haematologist and Haemato Oncologist with many firsts to his credit. He was the first Indian doctor to successfully perform Stem Cell Transplant in Multiple Sclerosis in 2014 and put the procedure on the map of Indian medical practices. He is also the first Indian doctor to have successfully used Stem Cell Transplant for treating Systemic Sclerosis. A path breaking anaemia clinic for the integrated treatment of anaemia related disorders was conducted under his leadership at FMRI. Credited with having established 14 low cost BMT centres pan India and excellent outcomes, his outreach has had significant impact in training medical practitioners at the grassroots level and serving society, especially the economically underprivileged.

Dr. Bhargava and his highly skilled team have performed over 2000+ BMT procedures both nationally as well as internationally, establishing them as one of the largest and most successful teams for Stem Cell Transplant, both Adult as well as Paediatric. His empathetic, patient centric approach, use of cutting-edge technology and vision of a holistic and integrated treatment have found support in the ethos at FMRI and led to excellent outcomes that have firmly established his reputation as leader in his field.

## WORK EXPERIENCE
